

Cold and Startled

At this interesting safety meeting we will start out with a presentation of the Wright Brothers "Master Pilot Award" to W.B. "Dan" Todd for 50 years of safe flying. Captain Bill Machauer will start out with a discussion on some of the risks associated with winter flying and some tips on how to reduce those risks. Byron Hamby will then lead a discussion on handling unexpected emergencies or events that can trigger the "Startle Response" which can cause a pilot to act impulsively resulting in a possible Loss of Control Accident. Byron will discuss threat and error management including how to be prepared for an unexpected engine failure from takeoff to landing, to help make you a safer pilot. Please click on the link below and register for this event today!

Directions: Common Hangar on the South side.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
